## Who we are

INAEP is an organization designed to bring environmental professionals together for discussion, education and growth. INAEP is a newly developed chapter of the National Association of Environmental Professionals (NAEP). NAEP is a multidisciplinary, professional association dedicated to the promotion of ethical practices, technical competency and professional standards in the environmental fields. The membership of this organization reflects a diverse group made up of governmental entities, industrial leaders, academia, consulting firms, students and others interested in the environmental industry. We are excited about our new chapter here in Indiana and hope that you will come and join us. Please contact our president, Brock Hoegh for additional information.
