**ASCE** a better world by design  
American Society of Civil Engineers

## **JOINT MEETING ANNOUNCEMENT**

**GEOTECHNICAL ENGINEERING GROUP, ASCE Metropolitan Indianapolis Branch,  
AMERICAN INSTITUTE of PROFESSIONAL GEOLOGISTS, Illinois/Indiana Section,  
PROFESSIONAL GEOLOGISTS of INDIANA, &  
INDIANA GEOLOGISTS**

**Tuesday, July 18, 2006 at 6:00 PM EST**

at the office of ATC Associates, Inc.  
7988 Centerpoint Drive, Suite 100  
Indianapolis, Indiana

**TOPIC: “Wetland restoration and lake level management structure on weak soils”  
Chapman Lake outlet control, Kosciusko County, Indiana.**

— to be presented by

**Mr. David Nance, PG of the Indiana Department of Natural Resources**

**Mr. Brian Neilson, Project Engineer of J. F. New & Associates**

### **BRIEF SUMMARY:**

Over the past year IDNR completed a repair project on a lake level outlet control north east of Warsaw Indiana. Problems at the site had been documented by IDNR for several years. The foundation soils, adjacent wetlands, ownership, and drainage issues added complexity to the design options. A design using a light weight cellular concrete levee core was selected to compensate for weak subsoil conditions.

Following an informal dinner and social time, we will briefly discuss future activities and allow members to ask questions or provide comments concerning the group. Please plan to join your fellow geo-professionals for an informative presentation.

If you plan to attend, please contact Mike Wigger at 317-273-1690 or [mwigger@earthengr.com](mailto:mwigger@earthengr.com)

ATC's office is located north of 96<sup>th</sup> Street between I-69 and the “Fair Train” tracks. Please refer to the attached map.
